

TALKING ROCK NEWS

Weather—Is is spring yet?

The Council has been working on ordinances and should have those finished this month. We still have discussion concerning the animal ordinances. But, those will come.

The Council wants to have another town get together. The Sheriff wants to present some information on their neighborhood watch program and we hope to include some information from the fire department concerning smoke detection and fire prevention.

Have you signed up for “Code Red” notification program that the County initiated? Some of you may have already experienced this service. This pro-

gram has already been of service during the bad weather that we have experienced. You can sign up with you home phone, business phone or a cell phone. You will receive notification of any County Wide emergencies. And the best of all is that it is free. *Code Red is a new emergency alert system that relays information to residents by telephone. In an emergency situation, the high-speed messaging system can deliver customized emergency notifications and instructions at a rate of 60,000 calls per hour.* Please consider this wonderful service.

Our next event is in the

planning stage.

Coming Soon...

Appreciation

Our Cub Scouts came to clean the park and around the train cars. After cleaning they planted some red bud and dog wood trees that they brought for us. We really appreciate their hard work. The boys worked

hard under the watchful eye of their leaders.
